## MESSAGE FROM THE DIRECTOR-GENERAL AND THE CHIEF, LEGAL & ADMINISTRATION

The collection of the ICGEb legal documents contains the main legal texts of the Organisation: the Statutes and the Rules of Procedure of its two governing bodies, the Board of Governors and the Council of Scientific Advisers. This publication upholds the mandate of the ICGEb by illustrating how it is unique among all International Organisations, representing an effective means of promoting global growth, equity and providing appropriate responses to societal challenges, such as hunger and impoverished health.

The ICGEb is committed to bringing its experience to the service of [Member States](#) through a tripartite approach: first, by promoting excellence in basic and applied research in the Life Sciences; second, by developing innovative technologies to be transferred to industrial partners in [Member States](#), and third, by strengthening capacities and skills of scientists from its constituency and facilitating the creation of appropriate research facilities in [Member States](#).

This publication is a tribute to the Organisation, now entering its fourth decade of activity, and is also a valid tool for all [Member State](#) representatives participating in its Governing bodies, partners, donors and readers worldwide interested in international law or engaged with the ICGEb. Care has been taken to ensure that the structure and format of this document allows easy access and consultation of the texts presented in the official English version.

We take this opportunity to thank the Governors, the Council, the Directors, officials, researchers, fellows and personnel of the three ICGEb Components in Trieste, New Delhi and Cape Town, for their enduring enthusiasm, co-operation and dedication over the years.

<sup>10</sup> *Ibid.*, Article 6.6.

3. Decisions on the appointment of the Director-General, in accordance with the procedure stated in Rule 43, as well as on the adoption of programmes of work and the budget shall be taken by a two-thirds majority of the Members present and voting.<sup>11</sup>

<sup>12</sup> *Ibid.*, Article 16.1 and 2.

### Rule 34 Conduct during voting

After the President has announced the commencement of voting, the voting shall not be interrupted until the result has been announced, except on a point of order in connection with the actual conduct of the voting. After the result of the voting has been announced by the President, the voting shall be considered completed and the result final.

### Rule 35 Explanation of vote

The President may permit a Member of the Board to make a brief statement in explanation of his vote either before or after the voting on the proposal or motion being voted upon.

### Rule 36 Division of proposals

A Member of the Board may move that parts of a proposal be voted on separately. If another Member of the Board objects, the motion for division shall be voted upon. Permission to speak on the motion shall be accorded only to two Members of the Board in favour of and to two opposing the division. If the motion is carried, those parts of the proposal that are subsequently approved shall be put to the vote as a whole. If all operative parts of the proposal have been rejected, the proposal shall be considered to have been rejected as a whole.

### Rule 37 Amendments

1. A proposal shall be considered an amendment to another proposal if it merely adds to, deletes from or revises part of that proposal.
2. Unless the Board decides otherwise, amendments may be subject to sub-amendments.

### Rule 38

#### Order of voting on amendments

1. When an amendment is moved to a proposal, the amendment shall be voted on first. When two or more amendments are moved to a proposal, the Board shall vote first on the amendment furthest removed in substance from the original proposal and then on the amendment next furthest removed therefrom and so on until all amendments have been put to the vote. Where, however, the adoption of one amendment necessarily implies the rejection of another amendment, the latter shall not be put to the vote. If one or more amendments are adopted, the amended proposal shall then be voted upon. If no amendments are adopted, the proposal shall be put to the vote in its original form.
2. When the Board decides, in accordance with Rule 36, to consider an extensive text in convenient portions (such as paragraphs or articles), each of these shall be treated as a separate proposal for the purpose of paragraph 1 above.

### Rule 39

#### Order of voting on proposals

1. If two or more proposals, other than amendments, relate to the same question, they shall, unless the Board decides otherwise, be voted on in the order in which they were submitted. The Board may, after each vote on a proposal, decide whether to vote on the next proposal.
2. Revised proposals shall be voted on in the order in which the original proposals were submitted, unless the revision substantially departs from the original proposal. In that case, the original proposal shall be considered as with-drawn and the revised proposal shall be treated as a new

proposal.

3. A motion requiring that no decision be taken on a proposal shall have priority over that proposal.

### Rule 40

#### Elections

1. The election of officers shall be decided by secret ballot unless, in the absence of any objection, the Board decides to proceed without taking a ballot on an agreed candidate or list of candidates.
2. When candidates are to be nominated, each nomination shall be made by only one representative, after which the Board shall immediately proceed to the election.

### Rule 41

#### Balloting

1. When one or more elective places are to be filled at one time under the same conditions, each delegation entitled to vote may cast a vote for as many candidates as there are places to be filled, and those candidates, in a number not exceeding the number of such places, obtaining in the first ballot a majority of the votes cast and the largest number of votes, shall be elected.
2. If the number of candidates so elected is less than the number of places to be filled, additional ballots shall be held to fill the remaining places, the voting being restricted to the unsuccessful candidates having obtained the largest number of votes in the previous ballot, but not exceeding twice the number of places remaining to be filled. However, in case of a tie between a greater number of unsuccessful candidates, a special ballot shall be held for the purpose of reducing the number of candidates to the required

number; if a tie again results among more than the required number of candidates, the President shall reduce their number to that required by drawing lots.

3. If in such a restricted ballot a remaining vacancy cannot be filled because the votes for the candidates for it are equally divided, the President shall decide between them by drawing lots.

### Rule 42

#### Procedure for the election of members of the Council of Scientific Advisers

1. The Board shall elect the members of the Council.<sup>13</sup> The Board shall elect up to twelve scientists and technologists, in their personal capacity, in the substantive fields of the Centre, in addition to a scientist from each of the three Host States.
2. The members of the Council shall hold office for a period of three years and be eligible for reappointment for another period of three years. The terms of the members shall be such that not more than one-third be elected at one time.<sup>14</sup> One year before the expiry of the mandate of the respective members of the Council, the President of the Board shall invite nominations from Member Governments. To be eligible for consideration, nominations of candidates must be received by the Secretary within a deadline set by the President and should be accompanied by all relevant information regarding the scientific and/or technical qualifications of the candidate, as well as by any complementary background information, which may be relevant to

the work of the Centre. On receipt of the nominations, the Secretary shall circulate such candidatures to all Members of the Board.

3. During the concerned session of the Board, the President shall make arrangements for convening an informal group of scientific experts from the delegations to the session to examine all candidates and to propose to the Board for its consideration a list of names for election by consensus.
4. A candidature may be withdrawn at any stage by the nominating Government.

### Rule 43

#### Procedure for appointment of the Director-General

1. One year before the expiry of the term of office of the Director-General, the President shall invite nominations from Members drawing to their attention that any candidate so nominated should be a person of the highest possible standing and respect in the scientific and technological fields of the Centre. Due regard shall also be given to the experience of the candidate in the management of a scientific centre and a multidisciplinary team of scientists. A date will be indicated by which the nominations are to be received.
2. A candidate for the post of Director-General shall be nominated in writing by a Member to the President of the Board by the required date.<sup>15</sup> On receipt of the nominations, the President shall circulate such candidatures to all members of the Council of Scientific Advisers and request the Chairman of the Council to convene a meeting of the Council to consider the candidatures.

3. The Chairperson of the Council shall convene a meeting of the Council to consider the candidatures received from the President. The Council shall recommend three candidates to the President by the date indicated by him.
4. A candidature may be withdrawn at any stage by the candidate or by the nominating Government.
5. The Board shall consider the recommendations of the Council in private meetings. It preferably shall reach a decision by consensus, failing which the decision shall be made by secret ballot by a two thirds majority of the Members present and voting.<sup>16</sup>
6. The Director-General shall submit to the Board for endorsement his proposal for the appointment of each Director of Component, after consultation with the Government of the Host Country where the relevant Component is located.
