Overexpression of heterotrimeric G protein beta subunit gene (OsRGB1) confers both heat and salinity stress tolerance in rice

Sudip Biswas, Md Nazrul Islam, Sarah Sarker, Narendra Tuteja, Zeba I. Seraj

PII: S0981-9428(19)30406-1

DOI: <https://doi.org/10.1016/j.plaphy.2019.10.005>

Reference: PLAPHY 5878

To appear in: *Plant Physiology and Biochemistry*

Received Date: 28 April 2019

Revised Date: 2 October 2019

Accepted Date: 2 October 2019

This is a PDF file of an article that has undergone enhancements after acceptance, such as the addition of a cover page and metadata, and formatting for readability, but it is not yet the definitive version of record. This version will undergo additional copyediting, typesetting and review before it is published in its final form, but we are providing this version to give early visibility of the article. Please note that, during the production process, errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
